

Drew Weintraub

AP Studio Art Final Portfolio 2024

Sustained Investigation

Written Evidence

Living in California provides a gateway to the wonders of the American West. Starting in Utah, I marvel at Zion and Bryce Canyon rock formations, igniting my curiosity. With easy travel access, I explore from deserts to mountains, investigating geological histories and past civilizations. Living here in California lets me immerse myself in these natural marvels, constantly discovering and capturing their beauty, giving myself the opportunities to travel across America, and reminding me of the privilege of calling California home.

I start off photo 1 as a gateway to all of the national parks I have explored. Photos 2-9 capture the diverse landscapes of the American West, showcasing Utah's majestic rock formations and California's varied terrain. As the portfolio progresses, it gradually moves towards the coast, reflecting the journey from inland wonders to coastal beauty. Photo 10 highlights mountain vistas, symbolizing the transition to higher altitudes. Finally, photos 11-15 depict coastal scenes, illustrating the portfolio's peak at the Pacific Ocean, emphasizing California's unique blend of wilderness.
